The Israel Export & International Cooperation Institute (IEICI)

The Israel Export and International Cooperation Institute is your premier gateway for doing business with Israeli companies. Established and funded by the government and the private sector, IEICI's expertise in technology and product scouting, joint ventures and strategic alliances with Israeli companies spans more than half a century.

Whatever your field is, IEICI offers access to relevant businesses and government resources. IEICI will provide the information you need to connect, negotiate and do business all over the world.

Digital Media Technologies Sector

IEICI is committed to advancing the Israeli digital media industry by bringing together Israeli companies and leading companies from around the world. They are active in retail and e-commerce, broadcasting, sports tech, travel and hospitality tech, ad tech and consumer electronics.

The RetailTech ecosystem is growing and rapidly becoming one of the hottest hubs for commerce technologies, with over 250 startups operating across the board from logistics to in-store. These companies are leveraging Israeli's expertise in deep-tech like the use of computer vision for self-checkout or the application of artificial intelligence for visual search.

Ministry of Economy and Industry
Foreign Trade Administration

Foreign Trade Administration

The Government of Israel Economic Mission in the East Coast is one of the leading Ecomania Missions of Israeli Ministry of Economy and Industry.

The Mission's primary goal is to promote business ties between Israel and East Coast, to facilitate trade, economic cooperation, draw investments to Israel and facilitate U.S.-Israel industrial R&D collaboration. The Mission is based in New York, and provides hands on business development support to innovative Israeli technology companies seeking to enter the U.S. market, as well as provides targeted technology scouting services to U.S. large corporations and organization.

Being at the junction of Israel-U.S. innovation and collaboration opportunities the Mission opens doors, provides market information and acts as a super-connector to facilitate successful long term relationships.

www.chainlane.io

**Chainlane is the supply chain transparency platform
unlocking true visibility for every enterprise**

Product Category: Data & Analytics, Retail Automation, Supply Chain Tech, AI & Voice Recognition

Chainlane's supply chain intelligence platform helps companies see more and sell more. Our cloud-based solution allows for accurate inventory management, data-driven insights, and operational efficiency through greater visibility and control across the entire supply chain.

We are easily deployed, highly customizable, and combine online, offline, & in-store data to enhance and streamline workflows in different verticals such as retail, logistics, manufacturing, food & beverage and more.

With Chainlane, companies have proven to increase sales, reduce costs, and improve customer experience as well as allow for greater innovation and adoption of changing market trends.

 Booth No. 460
www.deeyook.com

Deeyook Touchless Tracking and Asset Location – locate everything, anywhere, anytime

Product Category: Supply chain tech, Retail Automation
Mobility, Location Technology

Deeyook Location Technologies is a software company delivering precise Location as a Service (Laas) for both indoor and outdoor asset tracking as sought by the world's leading manufacturing, supply chain and logistics companies.

Our solution enables companies to locate their assets with sub-meter accuracy (~10cm) both indoors and outdoors. This is accomplished passively via the existing 2+ Billion WiFi access points worldwide. With no overlay or underlay networks required for implementation, the cost and time of deployment is greatly reduced, driving rapid ROI.

Its broad IP portfolio is a technological breakthrough based on interferometry and AI-based physical model.

www.hexa3d.io

3D Commerce Shaped for You

Product Category: VR/AR, 3D Commerce, Digital Twins, Synthetic Content

Hexa is a technology company that provides a 3D visualization platform to create, manage, distribute, and analyze 3D models, 360-viewing, and AR experiences. With digital twins and synthetic data, Hexa's platform offers a sustainable option for eCommerce companies and brands partaking in the metaverse or seeking to thrive in a digital environment. Serving Fortune 500 companies like Amazon, Macy's, Walmart, and more, Hexa's powerful infrastructure empowers the 3D commerce journey from start to finish.

Booth No. 359
www.invendiv.com

Invendiv provides automated shopping solutions to brick & mortar retailers, brands and wholesalers, optimizing the performance of challenging & high-theft product categories – improving convenience, boosting sale, reducing friction & operation costs.

Product Category: Retail Automation, Automated Shopping & Merchandising, Loss Prevention Technology

Safesale is our automated shopping system, that can merchandise, and dispense all types of products.

Retailers and wholesalers use SafeSale to sell complex, high theft product categories in a secure, focused way, provide a unique shopping experience, improve sales, and save worker's time

SafeSale and the supported categories can be managed and operated by the retailer, or as a store-within-a-store model.

SafeSale is versatile, smart, and managed remotely. It can be connected to the retailers IT systems, to be an integral part of their processes and a new customer facing channel.

iRomaScents®

Booth No. 363

www.iromascents.com

iRomaScents introduces the next generation of scented movies & commercials, as well as digitized purchasing of fragrances, supported by an AI wizard.

Product Category: AR & VR, Consumer Technologies, Retail Automation, Scented Shopping

The medium of visual entertainment has steadily evolved over the past century. But what happens when we come to a gap in our evolutionary path, that can only be bridged and linked with a missing sense?

Charles Darwin stated that evolution occurs through small variations, to assist with our ability to compete and survive. Sadly, despite its great potential, the sense of smell is hardly used in the entertainment arena. iRomaScents bridges this gap.

KANDUAI

Booth No. 360

www.kanduai.com

Edge AI computer vision

Product Category: Retail automation

Powered by our edge optimized ML training and inference engine we provide state of the art Edge AI computer vision solutions to retailers worldwide without any need for servers, GPU or cloud processing.

Our applications include

- Automatic produce recognition for POS, self-checkout machines and self-service scales
- Self-checkout scan avoidance and ticket switching detection
- Barcodeless express checkout

We provide unmatched accuracy without a need for extra hardware.

Our edge computing is agnostic to the processing unit or the specific camera which means our client can be up and running with their existing infrastructure with no extra capex investments

onebeat

Booth No. 362
www.1beat.com

Onebeat created an AI-driven retail technology that uses short-term predictions to translate customer behavior into real-time day-to-day actions that maximize sell-through and overall sales.

Product Category: Supply Chain Tech, Data & Analytics, Retail Automation

Onebeat is a retail-tech company that applies AI to optimize inventory within the season. Onebeat uses short-term predictions to translate demand trends into day-to-day actions for the retailer. Using Onebeat, retailers see an increase in full-price sell-through while using less inventory.

Onebeat's short term prediction algorithms transform forecast limitations into revenue opportunities by reducing inventory, boosting availability, improving sell-through, and increasing overall sales.

By breaking the product into basic attributes, Onebeat adjusts the amount of inventory and variety of products for each store and each channel on a daily basis.

Booth No. 457

www.orient.me

Accurate In-store location made simple

Product Category: AR & VR, Data & Analytics, Retail Automation, In-store navigation

Accurate in-store location without hardware – no beacons, no Wi-Fi.

Oriient IndoorGPS embeds easily into retailers' mobile apps, enhancing the physical store journey.

Offering direct navigation to products recovers lost revenues due to unfound items, and using proximity promotions increases basket size.

 Booth No. 558
www.pairzon.com

Pairzon is a Customer Data Platform designed for retail marketers. By consolidating all fragmented data sources into a unified dashboard, our AI-powered platform converts omnichannel transactions into optimized digital audiences that increase retention, reduce CAC and boost ROI.

Product Category: Customer Data Platform, Omnichannel Marketing, Marketing Analytics, Data Intelligence

Pairzon is a leading AI-powered customer data platform for physical retailers designed to help marketers unify omnichannel first-party data (offline & online) to dramatically boost sales, retention, and customer engagement.

Pairzon's data intelligence platform provides unparalleled measurement and audience segmentation capabilities, enabling physical retailers to optimize their marketing activities, drive revenue from previously-anonymous customers and significantly improve their ROI.

With a rapidly expanding customer base across different sectors such as groceries, apparel and fashion, beauty and cosmetics, drugstores and consumer electronics – Pairzon is a disruptive force in the retail market, delivering proven results and increasing ROI for physical retailers.

Placer.ai

Booth No. 463

www.placer.ai

Unprecedented visibility into any location.

Product Category: Data & Analytics

Placer.ai is the most advanced foot traffic analytics platform allowing anyone with a stake in the physical world to instantly generate insights into any property for a deeper understanding of the factors that drive success.

Placer.ai is the first platform that fully empowers professionals in retail, commercial real estate, hospitality, economic development, and more to truly understand and maximize their offline activities.

Placer.ai provides a range of easily accessible reports on-demand including market and chain level analysis, targeted search, demand planning and deep retailer analysis.

RETURNGO
