

V – Check at a Glance

Our Mission: Small-Medium Businesses (SMBs) are struggling with managing different payments methods and cash flow with high-costs and restricted solutions. V-Check is a new payments platform with unique technology and features to make SMB's life easier.

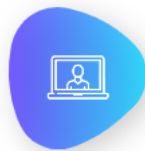

We have recognized that SMB's paper check's sending and receiving process is exhausting and expensive, therefore we have created an ecosystem to solve it. By registering to the V-Check platform, it will take you 3 seconds to send or receive a payment.

Digital Check By A Click

How come no one thought of it before?

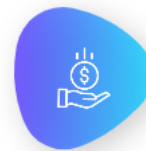

Time to put an end to paper checks, waiting for future repayment, or a second signer - V-CHECK enables to send Digital Checks based upon determined credit conditions, by one click!

Streamlining Payment Collection Processes

Your personal payment collection assistant

V-CHECK is a brilliant system that turns business payment collection genuinely digital. The infrastructure is equipped with advanced capabilities that study your business and save you precious time: automatic reminders for debtors, applied deposits to your bank account, creation of digital checks requiring debtor approval, and more!

Up To 70% In Saving Great Savings in Operation Costs

Up to 70% in saving costs related to operating physical checks. No more chasing after clients, no need for check printing, mailing, or purchasing notebooks. Simple & Lucrative!
